

### Göteborg Region IT infrastructure

Great (Göteborg Region Easy Access Technology) was formed in the year 2004 as an initiative to further develop the IT-infrastructure in the Göteborg region.

GREATs mission is to:

- stimulate the development of the region in general
- maintain Göteborg as a leading region within IT
- give more content to the brand of Göteborg

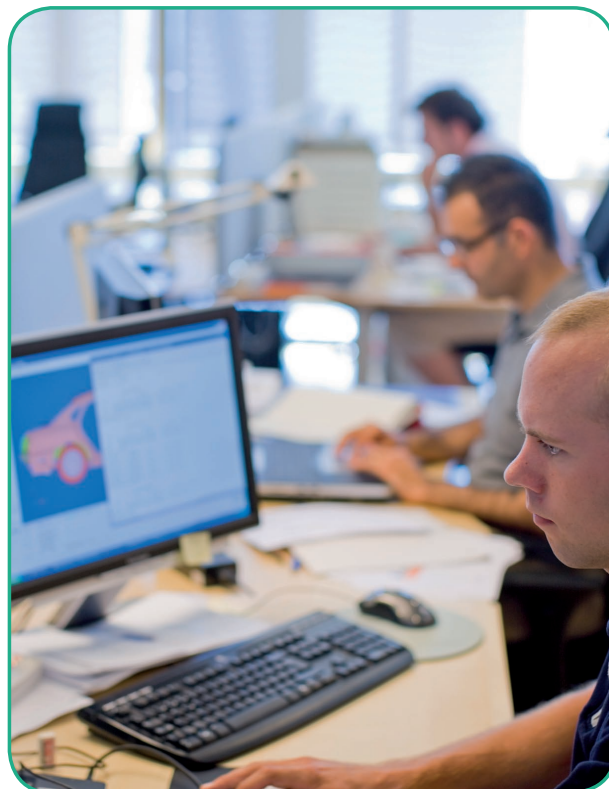

GREAT tries to achieve these goals by:

- investigating the status of the region's IT-infrastructure
- benchmarking Göteborg in comparison with other regions
- publishing and publicly discuss this information

The organisation has about 50 members, among these the local communities and the region, Industries like Volvo Ericsson and SKF, Telecom Operators, IT-companies, and representatives of various broadband users such as house owners, associations of small companies et c. Lindholmen Science Park is a partner of GREAT.

GREAT organises two large seminars about the benefits of a world class IT-infrastructure per year and also monthly meetings with speakers on various topics related to Broadband and ICT.

More information on the webpage: [www.it-infrastuktur.se](http://www.it-infrastuktur.se)

#### Security Arena Lindholmen

Security Arena at Lindholmen Science Park carries out research, methods and technology development applied to all phases of crisis management. Besides the research the work aims to conceptual development and pilot projects in collaboration between the industry, academia and end-users. This is a joint work between Lindholmen Science Park, Swedish Civil Contingencies Agency, Volvo, Saab, Ericsson and Chalmers. One of the goals is to spread knowledge about societal security and we are pleased to invite your to a series of free seminars about the research taking place at Security Arena Lindholmen.

*Welcome!*
